

## PEER LEARNING: GREEN CARE

**Monday 13<sup>th</sup> June, 10:00 – 15:00**

With acknowledgement of a struggling healthcare system, health and social care providers are increasingly recognising the immense benefits of time spent with animals and nature. As primary care services start to take a real interest in nature-based projects and their therapeutic qualities, with social prescribing happening more and more, there is a growing need for accessible green spaces.

How can we capitalise on this interest to develop programmes that benefit everyone?

Whether you work with elders, adults or children, plants, trees or animals, we can all learn from each other, find inspiration and overcome shared obstacles.

Join us for talks, walks, lunch and learning from abroad on our pilot peer learning day at Stepney City Farm.

**Attendance is free but booking essential as spaces limited to 15**

**Contact [ione@stepnecityfarm.org](mailto:ione@stepnecityfarm.org) / 0207 790 8204 to book your place**

**Read on for further information**
